EXPERIENCE

Frontend Engineer — D3 Labs

Sep 2025 – Present

Singapore · Web3

- Build product UI for a Web3 platform, translating Figma designs into reusable components.
- Integrate REST APIs and smart contracts into the frontend.
- Write unit tests and review teammates' code to keep quality high.

Frontend Developer — Telkom Indonesia

Apr 2020 – Apr 2025

Bandung, West Java · Pijar Mahir squad (React, Next.js)

- Turned story descriptions into meaningful, production-ready features with React & Next.js.
- Sliced Figma designs into polished components and tested for impact before release.
- Led daily standups and cross-functional brainstorms across business, design, and engineering.

Founder — Codevcast

Aug 2019 – Present

Indonesia · Developer media & podcast

- Run a podcast on technology and programming: source global guests, record, edit, and publish across social media.
